

# Relax and Enjoy Real Value

From the makers of

**HotSpring**<sup>®</sup>  
Every day made better<sup>™</sup>

**HOT SPOT**<sup>®</sup>

A blue wave graphic that underlines the text 'HOT SPOT'.

Your Time  
Has Come

## Why Now?

Because you are ready....

... to sit back and relax while a hot water massage releases tension from your muscles.

... to enjoy some fresh air and a little more time outside.

... to catch up with the people closest to you, free from the distractions of a typical day.

While the demands of daily life can feel relentless at times, you know it is important to stop and take some time for yourself once in a while.

Now, it is your time.

## Why Hot Spot?

A Hot Spot® spa is the perfect blend of affordability and quality. It is built by the makers of Hot Spring® spas, the world's number-one-selling hot tub brand and the industry leader for nearly four decades. Hot Spot spas are designed to provide you with the same excellent customer experience that Hot Spring is known for – at a value price.

By choosing Hot Spot, you get a reliable, quality spa with special features that you will enjoy for years to come. We understand what you need in a hot tub, because we are passionate hot tubbers ourselves. We know firsthand how spending time in a spa every day can rejuvenate your mind, body, and soul. Craftsmanship and long-term reliability, paired with daily enjoyment at a great price. That is the definition of value. That is Hot Spot Spas.

From the makers of

**HotSpring®**

## *The Hydromassage Experience*

Spa shoppers are searching for ways to reduce stress in their lives and soothe tired, sore muscles. What they find is not just physical relief, but mental reprieve as well – a way to slow down. They feel relaxed and unburdened in the warm water – free to reflect privately on the things that matter most, or enjoy meaningful togetherness with those closest to them.

How does all this magic happen? The spa's blend of hot water and massage creates a hydrotherapy experience that raises body temperature and increases circulation. Many dedicated hot tub users say the massage helps relax muscles and reduce stress, while the warm water increases flexibility and relieves pressure on joints.

## *Hot Spot Gets Right to the Point*

To create the optimum spa experience, Hot Spot® spas offer just the right number of jets, configured to relieve the tension in your back, neck, shoulders, calves, and feet and leave you feeling relaxed and refreshed.

The small directional Precision™ jets pinpoint specific muscles to provide relief precisely where you need it, while bigger jets offer a broad massage great for larger muscles.

You can adjust the strength of these jets to create a truly customised massage.

A man and a woman are relaxing in a hot tub outdoors. The woman, on the left, has short blonde hair and is smiling. The man, on the right, has dark hair and is also smiling, splashing water towards the woman. The hot tub is filled with bubbling water. In the background, there are green trees and a stone wall. A circular graphic with a dotted border is overlaid on the image, containing the text "Get More Out of Getting In".

Get More  
Out of  
Getting In

A young girl in a colorful, patterned swimsuit is laughing joyfully while holding a green water balloon. She is sitting in a hot tub. A woman with blonde hair tied back, wearing a blue swimsuit, is looking at her. The hot tub is outdoors, surrounded by green grass and trees. A white dotted circle is overlaid on the bottom left of the image, containing the text "Clean Water as simple as 1-2-3".

Clean Water  
as simple as  
1-2-3

If you are concerned that maintaining crystal clear spa water might be difficult and time-consuming, worry not!

Maintaining the water in your Hot Spot® spa has never been easier. We start with an accessible, easy-to-clean filter cartridge and automatic low-speed filter cycles to circulate water through the spa. Add the optional EverFresh™ system, and your water care program is as simple as 1-2-3.

## The Three-Part EverFresh System

For brilliantly clear, odour-free spa water, consider the EverFresh system. This special recipe for spa water care allows you to enjoy safely sanitised spa water with the use of very little chlorine.

**The easy three-part system includes:**

### 1 The FreshWater® III ozone system

The system produces a stream of ozone bubbles that are introduced into the spa water to neutralise contaminants.

### 2 FreshWater<sub>Ag+</sub> continuous silver ion purifier

Silver ions inhibit the growth of bacteria, which allows you to maintain clean spa water with fewer chemicals. The easy-to-replace cartridges last for four months.

### 3 FreshWater MPS chlorine-free oxidiser

Add a dose of MPS after each use to sanitise spa water.

Working together, these three easy steps keep water clean and clear, and reduce the need to add chlorine to just once a week.

## Water Care Enhancements

We offer a variety of water care options that can enhance the quality and feel of your spa water:

### Vanishing Act™ Calcium Remover

For customers with hard water, this innovative option effectively removes calcium particles from spa water, making it softer and silkier on your skin. Softer water also helps protect hot tub components from hard-water damage.

### Clean Screen™ Pre-Filter

If your water has high metal or mineral content, use this one-of-a-kind pre-filter to remove organic contaminants, metals, and tannins from your fill water.

Many spa shoppers think that choosing a hot tub with great features at a value price means sacrificing energy efficiency. With Hot Spot® you can have it all. Enjoy a fully featured Hot Spot spa and still take advantage of low operating costs that add up to savings, month after month.

### *It Starts Inside*

All Hot Spot spas use FiberCor® insulation – a revolutionary innovation – which delivers maximum energy efficiency. Loose, wool-like FiberCor fibres fill the spa cabinet to fully insulate the spa. FiberCor is applied at a 32 kg/m<sup>3</sup> density level, four times more dense than the typical 8 kg/m<sup>3</sup> foam used by most brands. It is also recyclable and environmentally responsible.

### *Wavemaster Jet Pumps*

Powerful and reliable, the Wavemaster™ jet pump provides optimum hydromassage and cost-efficient operation.

### *No-Fault Heater*

Our proven, high-quality No-Fault™ heater is designed to maximise heat transfer, keeping the water temperature high and your electric bill low. With a consistent water temperature, you can enjoy a relaxing soak anytime. The heater is backed by our exclusive No-Fault warranty, which has no exclusions, even for water chemistry.

### *Topping It Off*

Our insulating cover features a dense foam core with a high insulating R-factor, and it is designed specifically for your Hot Spot spa to ensure a tight, custom fit. Plus, an energy-saving hinge seal prevents heat from escaping through the centre of the spa cover.

All Hot Spot spas are certified to APSP-14, the American efficiency guideline for hot tubs, as well as to the stringent guidelines set by the California Energy Commission (CEC), the highest American standard.

A woman with long, wavy red hair is shown in profile, relaxing in a white hot tub. She has her eyes closed and a peaceful expression. The hot tub is filled with bubbling water, and the background is a blurred outdoor setting. In the upper left corner, there is a circular graphic with a dotted border. The top half of the circle is light gray, and the bottom half is white. Inside the circle, the text "Saving Energy Means Energy Savings" is written in a blue, sans-serif font.

Saving Energy  
Means Energy  
Savings

To Truly Relax,  
Choose a  
Company You  
Can Trust

Getting peace of mind from a spa requires more than hot water and a good long soak. You also need assurance that the spa you have purchased is backed by a company known for quality and performance.

Because Hot Spot® spas are designed and built by the maker of Hot Spring® spas, the global hot tub leader, you can expect the very best in reliability and customer satisfaction.

With more than 800 Hot Spring dealer locations worldwide, you can count on an experienced, professional Hot Spring retailer for local service and support. They are committed to providing you with an excellent experience before, during, and long after the sale. Plus, every Hot Spot spa is backed by our industry-leading warranty.

For you, this all translates to a worry-free experience, so you can focus on enjoying the benefits of your Hot Spot spa. That is what we call The Absolute Best Hot Tub Ownership Experience™.

***Do not take our word for it! Read what Hot Spot owners have to say here.***

*“The tub is beautiful; well built, and easy to manage. Customer Service before, during and after the process has been outstanding. I love my hot tub and consider it to be one of the smarter decisions I have made in a very long time.” – Relay™ Owner*

*“Our local dealer was great and knowledgeable. They helped us pick the right spa for our needs and budget. This spa is great for relaxation, socialising and therapeutic for aching muscles.” – Stride™ Owner*

*“One of the best investments we have made in quite some time. For any couple looking to spend some quality time together we highly recommend the TX model.” – TX Owner*

**HOT SPOT**  
  
[www.hot.spring.co.uk](http://www.hot.spring.co.uk)

How you accessorise your spa is entirely up to you. Our exclusive Necessaries™ products help customise your experience and ensure you get the most value from your spa. Whatever your ideal hot tub experience calls for, be sure to choose genuine Hot Spring® Necessaries:

## Wireless Music Systems

The Tempo™, Relay™ and Rhythm™ models are available with integrated speakers so you can add music to your spa experience. Our wireless sound system with Bluetooth® technology allows you to transmit your favourite song to the spa from your Bluetooth-enabled device. Or, upgrade to our optional in-home dock, to leave your device inside and enjoy music at the spa from almost any source in your home.

## Cover Lifters

A cover lifter proves its worth every time you use your spa by making it quick and easy to uncover the spa and start soaking. Our patented designs help reduce wear on your cover and extend its life. We offer four options, one to suit every spa and space requirement.

### CoverCradle™

Dual pneumatic gas springs in our top-of-the-line lifter make cover removal a breeze. It features a low-profile design and an ultra-smooth gliding mechanism. Requires 64 cm clearance.

### CoverCradle II

Similar to the CoverCradle, this lifter uses a single pneumatic gas spring for smooth operation. Requires 64 cm clearance.

### UpRite™

This system lifts the cover up over the spa bar top and is ideal for limited clearance applications such as decks and gazebos. Requires only 18 cm clearance.

### Lift 'n Glide™

This economical cover lifter makes it easy to lift and remove your cover. Requires 35 cm clearance.

## Necessaries: You Define It

### **Steps**

Easily enter and exit with a step designed for your Hot Spot® spa.

### **Everwood™ Step**

A sturdy, low-maintenance step made from the same rigid polymers as the Hot Spot cabinet. Available in Coastal Grey, Espresso, and Redwood.

### **Polymer Step**

Economical, durable, and lightweight. Available in Coastal Grey, Espresso, and Redwood.

*Looking for more? Other Hot Spot Necessaries include our Spa Side Umbrella, Towel Tree, Hand Rail, and more. Visit [HotSpring.co.uk/hot-tub-accessories](http://HotSpring.co.uk/hot-tub-accessories) for details.*

A photograph of a hot tub in a backyard at sunset. The hot tub is illuminated with blue lights, and a fire pit with a fire is in the background. A person is sitting in the hot tub. The scene is set in a backyard with a house and a patio in the background.

Five Models.  
One Great Brand.

**HOT SPOT**  
  
[www.hotspring.co.uk](http://www.hotspring.co.uk)

## Tempo™

6 adults  
226 x 226 x 99 cm  
45 jets

## Relay™

6 adults  
213 x 213 x 93.5 cm  
35 jets

## Rhythm™

7 adults  
213 x 213 x 93.5 cm  
35 jets

## Stride™

3 adults  
213 x 165 x 74 cm  
18 jets

Our Tempo™, Relay™, Rhythm™ and Stride™ models are designed with a full complement of features and enough space to accommodate three to seven adults. These beautiful and comfortable spas are built to enhance your experience with ergonomic seating, cushioned pillows, attractive jet recesses, sculpted footwells and up to 45 jets to provide a satisfying massage.

### Points of Light

Create nearly any mood with 10 multi-coloured LED points of light in six colours. Four lights brighten the footwell while six others above the waterline reflect off the surface and sparkle as the water moves. Display a single colour or a revolving display. A three-step dimmer controls the light intensity.

### Soothing Sounds

The Hot Spot® waterfall feature is both attractive and soothing. As you relax, you are treated to the meditative sound of gentle, cascading water.

Light your hot tub with a single colour or a revolving display.

If you want a quality spa that fits easily into a small space, consider the SX and TX models. Our three-person SX and two-person TX spas fit the space you have and provide the spa experience you are looking for.

### **Exclusive Moto-Massage Jet**

Beyond the powerful WaveMaster™ jet pump, No-Fault™ heater, and energy-efficient FiberCor® insulation, the SX and TX models come with the patented Hot Spring® Moto-Massage™ moving jet. This exclusive, revolutionary jet produces a warm stream of water that sweeps up and down the length of your back for an unparalleled hydromassage experience.

### **The Right Size for the Right Space**

Our TX spa was the first of its kind in the industry. With its slim profile and unique triangular shape, the TX fits through standard doorways, goes up and down stairs, and navigates around corners. Compact enough for a second-floor deck, yet roomy enough for you to stretch out and relax, the SX and TX models are ideal choices for a first hot tub, small families, empty nesters, flat owners, and more.

### **Optional Dedicated Circulation Pump**

For maximum energy efficiency, quieter operation, and continuous filtration, the optional SilentFlo 5000™ circulation pump can be added to the SX and TX models.

## SX

3 adults  
183 x 183 x 84 cm  
17 jets

## TX

2 adults  
174 x 174 x 74 cm  
10 jets

A man and a woman are relaxing in a large, dark grey hot tub with a white top. The hot tub is situated on a gravel patio in front of a modern house with large windows and a stone pillar. In the background, there is a swimming pool and outdoor lounge furniture. A circular graphic with a dotted border is overlaid on the image, containing the text 'SX and TX models'.
